LUNCH ORDER SAMPLE

On a paper bag/envelope include the following information:

Due to Health Regulations, when ordering your lunch please put the correct money inside a sealed envelope and place this envelope inside a new lunch order bag with your name and grade clearly marked.

Caring for your child's lunch

It is important that lunch is stored in a correct and hygienic container. We encourage parents to minimize the use of plastic wrappings and bags by using containers that are specifically designed for lunches that have a secure lid.

In warmer weather parents can keep their child's lunch cool by using an insulated lunch box or lunch ice cubes that can be frozen overnight.

Please check the AIA healthy eating policy at the Parent Hub/Students Health & Wellbeing, if you need

Dear Parents/Guardians,

Good eating habits start at home and can be supported by your school canteen.

AIA has won Nutrition Australian Award for our Healthy School Program. We ask parents to support our attempts to improve the variety & nutrient content of foods offered to students by supervising their child's choices to ensure a balanced selection. The majority of these foods are categorised as "green light foods".

Thank you for your great cooperation
